INTRODUCTION

The materials listed on the following pages are intended as a resource for teachers and other persons concerned with improving the educational opportunities of Puerto Rican pupils on the mainland as well as on the island.

Although not exhaustive, the bibliography aims at breadth and variety. The category of "culture," for example, is interpreted in its broad sense to include the history, morés, language and literature of the Puerto Rican people. Moreover, it should be noted that materials are included not only <u>about</u> but also <u>for</u> Puerto Rican students.

It is with the firm conviction that the native language and culture of Puerto Rican pupils should be viewed and utilized as an asset rather than a disadvantage to scholastic success that this bibliography is prepared. It is hoped that the materials listed will help develop more bilingual-bicultural programs and people.

The submission of additions or corrections and requests for further copies of this bibliography should be directed to:
